Course Duration	One day
Cost of Course	R 2 500,00 per delegate (excluding 15% VAT)

Course Overview

The ILO aims to ensure that it serves the needs of working women and men by bringing together governments, employers and workers to set Labour standards, develop policies and devise programmes. The very structure of the ILO, where workers and employers together have an equal voice with governments in its deliberations, shows social dialogue in action. It ensures that the views of the social partners are closely reflected in ILO Labour standards, policies and programmes.

ISO 45001:2018 – Occupational Health & Safety Internal Auditing

<p>Who Should Attend?</p>	<p>Any delegate that would like to understand International Labour Standards and Health & Safety Legislations worldwide. This is an alternative from the local National Health and Safety Act, to International.</p>
<p>Course Objectives</p>	<p>The purpose of this course is to outline the importance of International Labour standards and best practice. The adoption of each Countries Health & Safety Act is an extraction from the ILO. This course guides delegates on understanding the ILO by underlying the ILO's work and the importance of cooperation between governments and employers' and workers' organisations in fostering social and economic progress.</p>
<p>Benefits</p>	<ul style="list-style-type: none"> • Delegates will have an understanding of International Health & Safety Regulations • The difference between National and International Health & Safety Regulations • The different labour conventions

Assessments

- An Assessment at the end of the course will be required.
- A minimum of 60% is to be achieved to attain a Competence Certificate.
- If you achieve lower than 60% but get between 40 – 59% a second attempt will become available.
- If you get lower than 40% and fail the second attempt, you will need to re-purchase the course.
- An attendance certificate is awarded to you regardless of a pass or fail.

About WWiSE

Who are we?

World Wide Industrial & Systems Engineers (WWiSE) is an ISO/OHSAS consultancy, training, business solutions and systems implementation firm based in Southern Africa that provides clients with effective business processes and Safety, Health, Environmental and Quality (SHEQ) management solutions in preparation for ISO and OHSAS compliance. The solutions we provide and implement allow our clients to compete favourably in modern competitive business environments, locally and internationally. We also strive to be the leading training providers in SHEQ, ISO, Engineering, Finance, Business and Project Management.

What do we do?

Our services are aimed at the improvement of quality, efficiency, knowledge and competitiveness of client companies. The service range includes:

- ISO and SHEQ Systems implementation services whereby we assist client companies in meeting the requirements of ISO 9001, 14001, 22000, 31000, 27001, 20000-1, 50001 and ISO 45001 standards.
- Integrated Management Systems development whereby we integrate several business systems and quality management solutions into a single management system to comply with various quality and safety standards.
- Training of all employees (Shop Floor to Executive Management) in the fields of SHEQ, Engineering, Finance,

Business and Project Management to meet the job responsibilities and expertise requirements of International Standards.

- ISO, OHSAS Legal auditing which includes gap analysis audits, product, process, procedural, and systems auditing by our registered SAATCA auditors.
- Customised web-based solutions integrating current systems to be in line with ISO and OHSAS requirements

We are a Level 1 BBBEE Contributor that specialises in systems development, consultancy, training and auditing.
